COMMERCIAL MATTERS.

| SECOND BOARD. | SECOND BOARD

TUESDAY, Nov. 18-P. M.

There was a buoyant Stock market today, and Erie again advanced 1 P cent. with an active demand. Reading was quiet and rather heavy. than formerly, and it moves heavily. Harlem exhibas no feature of importance. The new road will be open to Chatham within the first fortnight of December, and the Harlem will then be a competitor for the through travel. Hudson River is heavy and sold at 69, a decline of 6 P cent. from the highest oint. The business, it is understood, is not equal to the expectations of the friends of the road. After the river closes, however, there will be probably better results. Norwich improved ! P cent. Zinc was a little better, but there was no life in it. Erie securities were firmer. State and Government Stocks are in moderate demand and held at higher

The market for Sterling continues firm at 1101@1101 for the extremes of first-class bills. A sale of £100,000 was made by one leading drawer to another at about 1101, drawn against gold to be shipped by the steamer to-morrow. As the drawer never insures and pays no commissions, he can place gold in London cheaper than other banke s. There is but a small supply of bills, excepting those drawn against gold shipments. Francs, 5.15@5.131; Amsterdam, 411@411; Hamburg, 361@361; Bremen, 791@791.

In Freights there is but a moderate business, and the rates are unchanged. To Liverpool Plour is 12d., Grain 4d. @4\d., Cotton is |d., Cheese 108.; Naval Stores 9 @ 12d., &c , with engagements of 2,000 or 3,000 bbls. Plour : 13,000 bus. Wheat : 500 bbls. Resin :200 bales Cotton : 1,000 bxs. Cheese, &c. To London 600 bbls. Flour, 1s. 10id.; 350 tes. Beef, 4s. 6d. 1,000 bxs Cheese, 30s.; 500 bbls. Naval Stores, 2s. 3d., &c. To Glasgow 11,000 bushels Wheat 5id., 500 bbls. Flour 18d. To Havre the market is rather firmer ... Cotton id : Ashes, \$5 : Rice \$6. To Holland there ie an improvement, ic. having been paid for Cotton, and 32s 6d for Rice. The subject of the Erie dividend has been

prominent topic in the street, and has been used to raise or depress the stock as the interest of various parties dictates. The semi-official rumor is that the Road will have actually earned over 5 \$\overline{F}\$ cent. on its capital stock, after the payment of all repairs, running expenses, and interest. It is also understood that the Road has been repaired and worked at a much lower rate than was previously anticipated, comewhere in the neighborhood of 42 or 43 F cent., and that a still lower rate is anticipated for next year. A meeting of the Directors was held this evening, at which a very satisfactory statement of the affairs of the road was exhibited, and the indisposition of a lew of the Directors to the declaration of a good dividend was removed. We presume that the earning of over 5 P cent. net, in the first six months after the completion of a Railroad, is without precedent.

At the Directors' meeting above alluded to it was resolved that the nett earnings of the Road, on the let of January next, not exceeding four P cent., should be paid to the stockholders. There is no doubt that that will be the amount of the dividend. Thus this vexed question has been set at rest, and the position The Tribune has always taken in regard to the profitableness of this road fully sustained by We congratulate sincerely the Officers. Directors, and Stockholders upon this auspicious commencement of their reward for their enterprise, an enterprise which will prove not only profitable to themselves but of inestimable value to the City of

There is still a good demand for Money, but the supply continues fair, and there is no advance in rates for loans on call. On good Stocks money is obtainable at 6:27 \$ cent. The supply of paper offering out of Bank is not large. It is a mat-ter of sincere congratulation that the heavy fall payments of our merchants have been made with so few failures.

There are now twelve hundred thousand dollars ordered for the steamer to-morrow, which exceeds the amount previously estimated. A portion of this amount has been received from Boston, and the Charleston steamer brings \$42,000. Private let. ters state that by the Chagres boats now due, we will receive about two-and-a-half millions. Should this prove to be correct, we shall have next Monday as much gold as we had before the Franklin sailed, having in the meantime exported in the neighborbood of three millions.

The estimated receipts of the Michigan Central Road for October were \$200,000. The actual result exhibits a remarkable approximation. The

The Times has discovered its error in relation to the interest due abroad on our public debt, &c. and now places it at one million per month which we still think too large.

The receipts at the Sub-Treasury are \$90,626; Payments, \$268,052, including transfers;

Balance \$3,148,884. The Controller of the City advertises for proposals for \$300,000 New York City 5 P cent Stock, for Docks and Slips, and for \$120,000 of Pub-

he Building Stock, No. 3. For particulars, see his The trade in Dry Goods is without change

of feature since our notice of last week. The Clothiers are more busy and are buying moderately preparatory only to their usual heavy purchases for Spring garments. The most active articles from first hands are Delaines and Shawls. The manufacturers have renewed their stocks and have commenced making to meet the Spring demand. The prices of Wood and Cotton have been of late steady, and as goods are very much reduced in stock no fear is entertained of lower prices; yet Cotton is doomed to fall much below current rates and Wood is more heavy this week than last. Heavy Brown Goods, with a very light stock, are firm in price though the demand is trifling. Bleached goods have been in some request for export, but there is no home demand of to meet the Spring demand. The prices of Wool

any importance. Prices are steady. Drills are quiet at the decline of last week. Osnaburghs, with an accumulating stock, are dull and heavy. Denims are mactive and prices mostly nominal. Stripes are more in request and sleady. Ticks are also in rather better demand. Canton Flannels are in good request and prices are buoyant, the supply being small. There is rather more inquiry for Printing Cloths but prices have not improved. The range is from 21 at. There is at last a very sensible falling off in the trade in Prints. The demand hitherto has been unprecedented. New and desirable styles still sell briskly, but stale parcels are heavy. The demand for Ginghams is less active, but is equal to the sup-ply, and prices are firm. Delaines are still very active, and at full opening prices; Clothiers' are rather in better request for the Clothing trade, and prices are steady. Cassimeres are dull for all kinds, but firm in price. Satinets are selling at lower rates. Tweeds are active for clothing purposes. Jeans are dull and heavy. Sheep Grays are very firm, with an active demand for the higher and medium qualities. Linseys are dull. Flannels are ac-tive and steady. Blankets are heavy in price and inactive. Shawls are still in good demand, and prices are firm. British Prints and Delaines have been much more active this week at full prices, but all staple goods are dull, except what few Linens and Cloths are buying by the clothiers. French Goods are less active, and the auction sales have materially diminished. Prices are now at the lowest, even for staple goods, and favor the buyer. The orders for Spring Goods are very light—much lighter than usual—and we anticipate a very light importation on native account.

There is matter in the annexed extract from The Hong-Kong Gazette for much gratification at the superiority of our ship-builders

at the superiority of our ship builders:

"Fine times these for American clippers! The Surprise, Capitain Demaresq, has been loaded for London at £6, while plenty of British ships are lying side and available at half the rate. The Surprise, we hear, carned \$60,000 from New-York to San Francisco—she will make over \$40,000 to London. We ask, are the Americans cutting us out, or have they done it! Let chipper freight be £6, or the rate by other ships £110s., the Americans get it, and we maintain that the carrying trade between China and England is as good as lost to British shipping."

The New Landon William price and Palmon.

The New-London, Willimantic and Palmer Railroad have just published a statement of the affairs of that Road. Its cost, up to this date, is \$1,450,-660. The length of the Road is 66 miles. It was opened from New-London to Willimantic in November, 1849, to Stafford Springs in March, 1850, and to Palmer, where it connects with the Western Railroad, in September, 1850. The total receipts have amounted to \$168,400, and the expenses of working and repairs to \$86,200. Of this amount a part has been appropriated to the payment of loans and interest on bonds, leaving a balance of earnings of \$15,718. The receipts of the last season exceeded those of the preceding season by 50 P cent. It is proposed to extend the Rosa in this State in the en-suing year from Palmer through Belchertown to Amherst, and by the Ware River towards Barre.

The Controller of Tennessee has recently made a report of the finances of the State, the substance of which is as follows. There has been paid into the State Treasury during

There has been paid into the State Freasiry during the two years prior to the first monday in October, 1851, from all sources, as well as upon warrants issued within that time. \$1,001,004 94 And there has been paid out of the Treasury within that time, for all purposes 933,431 25

sury within that time, for all purposes 933,431 25

Excess of receipts over disbursements for the two years. 70,573 69

Balance in the Treasury on the 1st Monday of October, 1849. 152,198 11

Leaving in the Treasury on the 1st Monday of October, 1851. 189

The receipts into the State Treasury have increased within the last two years from \$790,695 53 to \$1,604,604 94. The dispursements during the same time have increased from \$802,436 66 to the sum of \$933,431 25. Receipts over disbursements, \$70,573 69.

At Philadelphia the Money Market remains easy, and the street rate is 9@10 P cent. At Boston there is no change to note. The Banks are discounting with some liberality for their customers but are uneasy at the continued specie shipments At New-Orleans the market is stringent and sight checks on the North, 1211 B cent, discount : 60 day bills, 24@34 P cent. At St. Louis, the market was also tight, and considerable coin going to New-Orleans. At Cincinnati money is more stringent than it had been. Eastern exchange, 1 P cent. There is less demand for gold.

The Superintendent of the Rome and Watertown Railroad states that the earnings of the road for the present month will exceed \$20,000, on a cost of \$1,000,000. At the same rate for the year the earnings will be \$240,000. Allowing one-half for expenses, the net earnings of the road will be \$120,000, or 12 P cent on its cost.

The Ontario and Huron Railroad, connectine lakes Ontario and Huron, we learn from The Chicago Democrat, is to be completed in fifteen months, at a cost of 2,000,000, of which 1,700,000 has already been provided. The western terminus is Goodrich. Immediately after the completion of the road, a line of steamers will run between Chicago and Goodrich, in connection with the road, and a line of steamers on Lake Ontario.

To Mariners.

A. D. Bache, Esq., Superintendent of the U. S. Const. Survey, in a recent letter to the Secretary of the Treesury, states that the latitude of Point Phose, coast of California, as completed from the observations of Ass't. Geo. David-

is completed from the observation of the STREAM.—The Bunt Head BUNT HEAD IN THE GULF STREAM.—The Bunt Head having extended itself further to the South Westward, the Buny at that station has been shifted about two cables lerg h in that direction, and now lies in four fathers at low water, with the following marks and compass bear-St. George's Church, Ramsgate, in line with the East iserdead, N.4E. Waldershare Tower on with the Spire of a New Chapel

at Deal
Oulf Stream Light Vessel N.E. by N.
South Brake Baoy N.W. | W.
Mariners are desired to observe that the above further
extension of the Bunt Head renders the Navigable Channel
very narrow.

Very narrow.
